December 2022

The Alliance's work crew standing atop the second story flooring, just completed, in the new William Luther Pierce Memorial Library warehouse building.

Book Warehouse Progress

Driven inside by extreme record low temperatures in late December, our staff worked on framing out the interior of the well-insulated William Luther Pierce Memorial Library book warehouse while Chairman Williams kept them supplied with needed construction materials.

With downstairs framing nearly completed, our crew has now finished the second story flooring. There's no lack of indoor work to do this winter.

As of now we have spent approximately $95,000 on the Pierce Library site, including clearing, grading, and the interior road; a quarter mile of underground electrical and water utilities; gravel, concrete, masonry, insulation, lumber, plywood, fasteners, tools, and labor, not counting volunteer labor by Alliance members. That's less than $25 per square foot

so far which is remarkable for 2022.

We have zero debt on this project other than around $5,000 to the building supply house for material on which we are granted 6-12 months to pay at zero interest. Chairman Williams gets an additional 10% discount for being a veteran. All buildings and Alliance land are free and clear, no mortgages. Now all that's needed are a few racially responsible well-to-do Whites who believe in what the Alliance has been doing and who will see to it that we have the necessary funding to expand Alliance-building even further.

We will move much of what remains in the buildings at our West Virginia campus to the new warehouse when it is completed. Then we will find a buyer for that extraordinary 86-acre campus, with proceeds going to build the planned WLP Memorial Library adjacent to the warehouse. It may take years, but we are determined to remain solvent and debt-free.

Cosmotheist Books

Titles added to our bookstore this month are: *America Balkanized: Immigration's Challenge to Government* by Dr. Brent Nelson, a member of the editorial staff of Dr. Kevin MacDonald's *Occidental Quarterly*. Thus book is a brilliant analysis of the increasing ethnic diversity resulting from the federal government's out-of-control open border policy, which leads to increased alienation, social disorder, the replacement of the nation's White founding stock by non-Whites, and which will lead to catastrophic disintegration, with the survivors regrouping into homogeneous ethnic enclaves. Nelson shows multi-ethnic states never work. *Deconstructing America: Immigration, Nationality and Statehood* is a 1998 monograph by Joseph E. Fallon, a now very rare piece with bibliography (in cellophane); *Putin's Playbook: Russia's Secret Plan to Defeat America*, by Rebekah Koffler, is a 400-page 2022 hardback. Russia-born Koffler is a former American CIA intelligence officer and now an occasional Fox News analyst who says the Russian/Ukraine war is unwinnable on all fronts and that Putin is "sanction-proof" — she writes from an anti-Putin and anti-Communist perspective, and there are blacked out redactions in the book ordered by her former CIA bosses; *The Life and Death of Admiral Wilhelm Canaris, Nazi Spymaster* by Michael Mueller, a 2017 illustrated hardback, tells of Canaris's rise to become Hitler's intelligence head from 1935-1945, including his fall for secretly working against Hitler's policies hroughout the war — upon discovery of his disloyalty, the "complicated" Canarais was rightly executed as a traitor.

Correspondence

Hello everyone. I'm just a regular guy. Pretty boring. I watch TV and go on scenic drives and sometimes do some hiking in the woods, taking photos and videos. I've never been politically active. But over the last several years, I started watching political YouTube channels and reading some political books.... I stumbled upon E. Michael Jones. I read his book *Libido Dominandi* and I got really curious as to why he was banned from major social media. That got me on Bitchute and Gab. Watching Dr. Jones videos, I began seeing someone I's never heard of before in the suggested videos column, Dr. William Pierce. Somebody years ago made a slide show video: "Why Feminism Is

National Alliance Business Manager Lana Williams poses at our new warehouse's office window. A goal is to win the 2023 prize for the most attractive front elevation, awarded each year by the manufacturer of our 35'x55' Quonset hut superstructure.

Genocide" that is on Gab and Bitchute.... I started reading political books to find more information critical of feminism [because] most mainstream people speak of feminism as a universal good, which is laughable. I found out last month (November) after writing to *National Vanguard* that the video "Why Feminism Is Genocide" was actually called "Marriage and Survival" and was first broadcast in 1997 on *American Dissident Voices*.... Ever since, I've been reading more articles from *National Vanguard* and watching the Pierce videos that circulate online. That led me to find out about George Lincoln Rockwell and Tom Metzger, who I had never heard about. Though I'm watching enough videos already, I skimmed through their videos and articles. My favorite author/personality is Dr. Pierce, so I have since concentrated on his work and that's why I'm here. I'm a big Dr. Pierce fan now and maybe I can help out.... I made a slide show video that I posted in a comment [under the text of] the last *ADV* "Rumblings from the Future" [on nationalvanguard.org]. I also bought the *New World Order Comix* and *Pocahontas Show Trial* from your bookstore and applied to be a member of the National Alliance.... — *D.C., Mississippi* (via whitebiocentrism.com)

Chairman Williams responds: D.C.'s introduction is shared in this month's **BULLETIN** because it shows a journey taken these days by a "regular guy" — not a "movement" person — and the roundabout way he discovered the body of work of Dr. Pierce and our Alliance using the Internet. He had actually begun his journey reading the Negro conservative Thomas Sowell and the Christian conservative Phyllis Schlafly, then Pat Buchanan — a normal progression for one who is simply looking to discover why race-destroying feminism has been accepted without much opposition. He found our copyrighted "Marriage and Survival" from some thief who had simply changed its name, produced it as his own without attribution or pointing his subscribers to our Alliance Web sites. Everybody has to start somewhere before discovering the National Alliance. Now he's read our comic, my *Show Trial* book, registered at our forum, and joined the National Alliance. Since joining our organization he has produced a couple of outstanding slide shows on the Gab social media site and, as this issue of the **BULLETIN** goes to press, he has purchased *Cosmotheism: Religion of the Future*. Members should take note of D.C's rapid transition from "regular

guy" to Alliance member with an interest in Cosmotheism. There are literally tens of thousands of responsible young Whites like D.C. on the Internet who find feminism — or some other issue that is destroying our nation and race — disgusting, and are looking for the sensible and radical voice of opposition that they won't find from Thomas Sowell, Phyllis Schlafly, or anyone else. He will help us to find more people like himself.

Chairman Williams: Enclosed are my December dues. I like the look of the renovated house in tha November **BULLETIN**. It sure looks a lot different than it did in the earlier **BULLETIN**. Good job! — *T.B., Indiana*

Dear Chairman Will: Let me start by apologizing for not sending my monthly donation for a while. My husband and I were in a very bad motorcycle accident in July. We have slowly been recovering and getting better every day. I have enjoyed every issue of our **BULLETIN** and look forward to receiving it each month. I am a *true* believer in *all* that the Alliance is and stands for, and wish there was more that I could do. It has been wonderful seeing progress on our library complex. How I would love to be able to do more, but at least my donation is now enclosed. Thanks again for all that you do. — *K.L., Virginia*

National Alliance: I enjoy receiving monthly news and updates each month in our **BULLETIN**. Enclosed is $100 and will send more later. There is so much going on, so many liars at the top now, that at this juncture I don't see how the corrupt country can continue. — *J.R., California*

Chairman Williams responds: Any White who cares about what is happening to his race and is following the news lately feels as you do, J.R. There's not much our Alliance can do about all the national problems except educate our people, provide understanding of the causes, and give them hope and guidance. The solution is to turn inward and, among those things we care about deeply, take control of what we *can* control. Racial separation is never discussed in the controlled media as a solution to all the ills we face that have a racial aspect — and everything human has a racial aspect! The country *will* break apart, or balkanize, and it will do so along ethnic or racial lines. That is a given. Our bookstore has a substantial stock of Dr. Brent Nelson's hardback, *America Balkanized*. It is described in the Cosmotheist Books section of this **BULLETIN** and is offered to those who receive this issue at the special reduced price of $8 postpaid (for other customers, the price is $12 plus $4 postage and handling).

Chairman Williams: Please accept this check ($1,000) to cover the couple of months of past dues, with the rest going as a gift to the Alliance, not to be applied to future contributions. To be honest, I was recently burned out. I work very hard at voicing our message but find it so hard to achieve the results I have hoped for. Our Alliance message is so valid and should be acceptable to so many, yet so few are willing to become involved. It has been frustrating for me. Do you have any advice on how to deal with this "burn out"? I am coming out of this funk and regaining some enthusiasm for our work. Hopefully some of the seeds I've planted will bear fruit eventually. The Alliance's pendant is a great idea, but I was unable to order one this month. I wish you all a happy Yule season. Keep up the good work and I will too. — *G.B., Wisconsin*

Chairman Williams responds: G.B., we thank you once again for your generosity and I have ordered a pendant and set it aside for you. You could have included an order for one, but made a large donation instead. I've noted previously that a $1,000 donation is the equivalent of 50 members paying the monthly minimum. To sacrifice and carry so many others on your shoulders helps so much since, like you say, "so many are unwilling to become

involved," even for a mere $20 per month.

How to deal with burnout? I know how you feel because I have burned out several times myself over the years. Taking a little break when you are feeling symptoms of the "funk," as you put it, and you'll eventually be energized again, finding your former enthusiasm. With what we know, and being responsible men and women of our race, quitting is not an option. I've seen a few who have quit our cause and don't get back involved, and wonder how they live with themselves. We simply continue forward without them, leaving the door cracked open should they regain their spirit and want to come back. They know we are right. Persevering over the long haul can be empowering.

Hi, Will and Lana: The new National Alliance pendants are an outstanding idea. I would like to buy three of them, without the chains — one for myself and one each for my two young children. I will give them theirs when they are old enough to understand what it means. Since I am a supporter I do not have a member number, so please engrave the backs with the Alliance's slogan *Do right and fear no one*. The enclosed $300 should cover the cost with the rest going to the Alliance. My end of year donation will go out next week, but wanted to make sure my pendant order made this year's deadline you put in the November **BULLETIN**. Thanks, — *D.S., Texas*

Chairman Williams responds: There is no doubt that your children will be raised right, D.S. Our National Office has received your end of year donation ($2,000) since we got your earlier note. Your continuing generosity is what makes our work possible. We received orders from our members and supporters in good standing for 21 pendants as the year comes to a close. We will have those from the jeweler soon and will ship.

Dear Mrs. Williams: Please accept my first contribution of $100. Thank you very much for your kind note, the copy of an Alliance **BULLETIN** and the [*Building a New White World*] booklet. I very much admire the work of your husband and Mr. Strom. You correctly identified my Slavic name. I am Bulgarian, now a naturalized American and have five beautiful White children. For now I will remain an Alliance supporter until my income allows me more independence. Afterwards, my future is with the NA. I consider the USA, Russia, and Germany the most crucial nations for White survival and happen to be fluent in English, Russian and German. I live in the Washington, DC area which is perhaps the most Zionist Jew-infested area in the country. From here, most planetary wars are being planned and carried out, including the worst war of all — the one being waged against us, the Europids. Sincerely, — *S.L., Virginia*

Chairman Williams responds: It turns out that Lana is one of our Alliance's top recruiters. She has an advantage since she has access to positive mail addressed to our National Office, but she doesn't do anything that another member can't do when he identifies a like-minded White who he thinks will make a worthy fellow Alliance member. When I first met Svetlana in Russia, my attraction was not only to her physical beauty, but to her intelligence, positive spirit, lifestyle, and interaction with her wonderful family and friends. She was not racist at all, perhaps because she had never been exposed to TNB (Typical Negro Behavior) as we have. I fully disclosed to her my racial politics. She wasn't bothered by that but warned me that she couldn't be my Krupskaya, (Lenin's radical significant other). As it turned out, the more I told her about media control, Jews, communism, race, queers, etc., the more she came to admit that all I was telling her was true, and she is attracted to truth.

Commentary by Chairman William White Williams

Our Alliance's Alleged "Competition"

It's unfortunate that a large majority of our members, many of whom have Internet access, do not participate in the National Alliance's online community forum, whitebiocentrism.com (WB). Unlike the many social media platforms that we do not control — and on which our people are often blocked or censored — *we* control WB. I encourage computer-literate Alliance members to at least check it out; register if you find it interesting; and participate if you have something positive of interest to share with other members or with visitors who are interested in the National Alliance and Alliance-building. This **BULLETIN** is exclusive to members and supporters, but what we can tell you in these pages is limited by space, and by our once-monthly publication schedule. When I first started WB in July of 2013 only myself, Kevin Strom, and one other fellow were registered. My predecessor, Erich Gliebe, still had control of the NA corporation and it would be another 18 months until I wrested control from him and became Chairman. Kevin and I were determined to save and resurrect what Dr. Pierce and so many of his followers had spent decades building, even if it meant creating a new National Alliance, apart from what Gliebe & Co. had nearly destroyed in the dozen years after Dr. Pierce's death. Kevin produced our first *ADV* broadcast at the end of December, 2013, and began producing National Alliance content for nationalvanguard.org again. After years of struggling with WB, when often I'd be the only person making comments there for days at a time, WB is now reasonably active with several members contributing. I had vowed initially to average at least one comment per day on WB, and today, as this issue of the **BULLETIN** goes to press, statistics show that I have averaged 1.02 posts per day, or 3,515 since we launched the forum. I could have quit several times during these eight and a half years, but was compelled to honor that simple vow and set an example — showing that I was confident one day others would follow. No brag, just fact.

There is a section of WB named "Words of Wolf Stoner," where we add occasional articles and commentary by our erudite, bilingual Russian member. Wolf recommended there on 21 December that we listen to a podcast from patriots in the Nordic Resistance Movement, a fine group in Scandinavia. I don't listen to podcasts as a rule, but eventually did, took some notes and gave my impression of that particular show and its guest. My impression was not very favorable.Wolf and member Jim Mathias agreed, and it's all there on WB in our "Words of Wolf Stoner" section. I won't name the group the guest represented here, but anyone can follow the link on WB, listen, and form his own opinion. Wolf followed up with these words (edited for brevity):

> Yes, it is a lengthy podcast. I listened to it while doing some tedious computer work. Thank you for sharing information about these people. I fully agree with your remarks about Christianity, computer games, and trashy music. I dislike all those aspects, too. The main problem with all

nationalist organizations is the prevalence of a mainstream mentality among the bulk of their membership. When people discuss Hollywood trash as something serious, it produces an unfavorable impression. They are yet stuck in this dirt. [By] giving a link to such podcasts I don't mean for those organizations to be an example to emulate; but simply offer them as something that presents some interest to us. Some of those people need to grow up to National Alliance level, but many of them will never be able to overcome their mainstream legacies. For us the main interest in any such organizations is to reach a potential recruit pool. From the very start I had doubts about [...]. I have listened to all their public speakers. They try to resemble nationalist movements of the 1920 and 1930s and it is suspicious. In this way they only help our enemies to concoct the narrative about "violent Nazis" who "present a threat to society." [...] is definitely a talented man but he is too theatrical. It evokes some suspicions. I followed their activity since they started in 2020 but I never fully believed in their sincerity. But I am sure that there are those among party members who are serious in their intentions.

Jim Mathias wrote:

Some time ago I did a little research on [...] and the rest of the [...] gang and posted some very interesting facts about them here: [link deleted].

I highly recommend you become familiar with these people too, they're anything but the kind of people we would consider Alliance material.

Wolf, again:

Thank you for this information. Any Jewish connection disqualifies a man from being a leader among White people. The quotes from [the group's] program testify not so much about their malicious intent as [it does] their desire to play politics in the framework of the existing system. Despite posing as being extremely radical, they dream about being accepted by mainstream society as an alternative to the Republican Party. Surely, [that is] never going to happen. There were many other nationalist organizations that tried to follow this path; such attempts always ended in failure. The British National Party is the best example. They forgot the main principle of successful struggle: Never compromise on the core issues. But they try to gain some foothold in legal politics by trading away the most essential aspects of their principles. Maybe such organizations are fostered by the System in order to have a grip on the situation in case a big social unrest starts among White people. In any case, even if [...] leaders themselves are not stooges, this party is thoroughly infiltrated by the FBI. It is very easy to do with an organization that tries to be a popular mass movement. [...] is sure to be a failure at some point; either by design or due to the wrong path its leaders chose.

Wolf is a very experienced and dedicated Russian nationalist who looked around after years of nationalist failures to discover Dr. Pierce's distinctive and consistent body of work. He then joined our Alliance and has been promoting the NA ever since as "the template for every nationalist organization worldwide." He recognizes that our religion, Cosmotheism, is the necessary spiritual foundation that other pro-White groups lack, and sees that we do not compromise on fundamentals.

"God" of the Cosmos vs. a Fictitious Semitic "G-d"

We all suffer through personal tragedies in our lives and we all eventually will die. Nobody gets out of life alive. What counts is what we do with our lives. Dr. Pierce often quoted the ancient Norse proverb: "...one thing I know that never dies: the fame of a dead man's deeds." It is fitting that *The Fame of a Dead Man's Deeds* is the title of the only authorized biography of the founder of both our National Alliance and of its spiritual belief system, Cosmotheism. Every member should have a copy of this book in his personal library. It is available in our online bookstore.

The National Alliance's fearless Media Director Kevin Alfred Strom's fame

will never die for the noble deeds he has accomplished through thick and thin for 40 years. Kevin had a rough December, losing both his adult son Edgar and his mom Mary Lou as well as a very close friend. Dying is part of life, and Kevin will persevere, as we all will as we face our own challenges in the new year. On 26 November Kevin's *American Dissident Voices* broadcast featured, instead of a Christian Thanksgiving prayer, what amounts to a Cosmotheist sermon: "Giving Thanks to the Creator." He addressed the use of the words "God" and "Creator," and objections by some that these words are too Christian. He said:

The word "God," and possibly to a lesser extent the word "Creator" have been ruined for these people, by their use in common parlance as synonyms for the Jewish-Christian Jehovah. When they hear those words, they see naïve Sunday school illustrations of a bearded man up in the sky sending stone tablets down to Semitic shepherds. They fear that the readers and listeners we really need to reach, the ones who can really build the Alliance, the brightest and most hard-headed who just laugh at the slave religions and their nonsensical beliefs, will just snicker and move on elsewhere when they hear the word "God" falling from our lips.

Kevin then quotes Dr. Pierce from four of his talks in which he clarifies the use of words "God" and "Creator," as well as "Godhood" as a goal for Cosmotheists. To listen, or to read Dr. Pierce's full quoted material go to "Giving Thanks to Our Creator" on nationalvanguard.org.

"We want a society, finally, which in all its institutions and its policies, in its schools and its athletic programs, in its taxing policy and its welfare policy and its foreign policy, in its environmental programs and its military defense program, reflects the one overwhelming fact that it is a society not of man alone, but of man as a part of God, as an embodiment of the Divine Spirit."

Dr. Pierce was particularly focused on God in his piece entitled "Winning" in which he said: "Now we must work harder than ever at the things we have worked at before, but we must also begin making sure that we all know the answers to certain fundamental questions. Among these questions are: *Why is it necessary that the White race maintain its biological integrity? What is God's will in this matter? What is the proper relationship of the individual to his race, and of the White race to the rest of Creation? In what way do our lives have an absolute meaning and value? What is the purpose of man's existence? How does the individual attain immortality? What are the basic values on which we want to build a new society?*"

This month's commentary will close with another partial comment by Wolf Stoner, made on 29 November on NV under Kevin's "Giving Thanks to the Creator":

Fully agree with this use of the word "God." I am sure Hitler used this word in the same sense. He was compelled to tolerate Christianity in order to be socially acceptable but there are indications that he envisaged deep reforms in the future in order to clear out the Christian virus from Europe. There should be no confusion of the word "religion" with "Christianity." These terms are not synonymous. We must be religious but non-Christian. The very nature of the European collective spirit is deeply religious. White people are the most spiritual of all creatures on Earth. Only White people can put abstract intellectual ideas above their own material prosperity. In this sense White people are the only group of living creatures who are truly spiritual — not all Whites but some of them, the best ones. Those Whites who forget their true nature and the true meaning of their lives and their preordained destiny, must fall and melt away in the amorphous subhuman mass. Only those who understand their true nature and who value their identity more than anything else, can break through all hurdles and achieve true greatness.

I can't express what needs to be said here better than Pierce, Strom, and Stoner. Wishing all Alliance members and supporters success in 2023! **W. W. W.**
